

COMPANY PROFILE

INTRODUCTION

MATEX has been at the forefront of the constantly evolving high quality construction chemicals in the market today. We are a global specialty chemical company that produces a broad range of superior quality products, expert technical support, customer service and innovation.

MATEX also specialize in the production of waterproofing and protective coating products, adhesive and grouts, surface treatments, admixtures and additives, special resins and mortars to meet the requirements of almost every industry in the world.

We are committed to an ongoing product improvements across all our product range in order to excel quality and adopt latest technological material construction.

We aim high. We are a team who concentrate on winning, and it's not just what we achieve together but how we achieve it that helps us create a value and sustain success. With honesty and integrity at the center of our values, we strive to always do the right thing.

We have developed long-standing relationships with our clients and pride ourselves on what provide. We maintain close interaction with our clients to determine their requirements and align our processes towards their total satisfaction.

A photograph of a construction site. In the foreground, several workers wearing white hard hats and high-visibility yellow safety vests with the Matex logo are seen from behind. They are looking towards a large building under construction that is covered in blue safety netting. In the background, a tall, classical-style building with a central tower is visible under a clear blue sky. The top of the page features a decorative pattern of light blue squares.

MISSION

At the epoch of modern development, Trust is a precious commodity. Our mission is to seek our customer's trust and in return offer our outmost Commitment by being your **MATerial EXperts**

COMPANY CORE VALUES
